SUMMARY

Quantitative minded Mathematics graduate and Data Analyst with a strong focus on Financial Modeling and Predictive Analytics. Expert in leveraging Python and Machine Learning to extract actionable insights from complex datasets, including stock market trends and corporate P&L. Proven track record in optimizing business profitability, bidding strategies, and operational efficiency through data-driven decision-making and cross-functional collaboration.

EDUCATION

State Islamic University of Maulana Malik Ibrahim Malang

Bachelor of Science in Mathematics | GPA : 3.60

(Aug 2021 – Dec 2024)

CERTIFICATIONS & PROJECTS

-
- Certificate: bit.ly/Cert-WildanNuril
 - Github Projects: github.com/wheldnz
 - Tableau Projects: public.tableau.com/app/profile/wildan.muhammad/vizzes

PROFESSIONAL EXPERIENCE

Data & Business Analyst – PT. Sukses Multi Servis

Juni 2025 – Present

- Strategic Analysis: Conducted comprehensive P&L analysis for all branches; identified 2 underperforming sites for closure and 3 for expansion, projecting a 15% increase in corporate ROI.
- Bidding Optimization: Developed a data-driven bidding model for 500+ used mobile units, increasing gross profit margins by 12% through market price trend analysis.
- Digital Transformation: Revamped corporate website UI and internal dashboards, improving data accessibility by 50% and streamlining management reporting workflows.
- Financial Auditing: Performed systematic financial audits across branch networks to resolve data discrepancies, maintaining a 99.7% reporting accuracy rate.
- Warehouse Excellence: Restructured warehouse penataan for 1,000+ SKUs, achieving 98% inventory accuracy and reducing picking time by 25% during stock opname.
- Data Visualization: Built 5+ interactive Looker Studio dashboards to monitor SLAs and logistics performance for 30,000+ monthly transactions.
- Process Improvement: Analyzed delivery datasets to eliminate operational bottlenecks, contributing to a 20% reduction in delivery lead times.

Full Stack Developer – IT Team of KOMET (Mathematics Competition)

May 2022 – June 2023

- Architected and deployed a web application for 500+ participants using Laravel and MySQL, increasing platform accessibility by 30%.
- Built and optimized a RESTful API for participant data management, reducing data retrieval latency by 40%.
- Managed server deployment and hosting, ensuring 99.9% uptime during peak competition hours.

Database Management (Intern) – PT. ASABRI KC Malang

June – July 2024

- Maintained 1,000+ sensitive participant records with 98% data accuracy via CMS ASABRI.
- Automated document scanning and archiving workflows, reducing manual processing time by 40%.
- Redesigned official receipt forms, improving document clarity for 500+ retirees.

ORGANIZATIONAL EXPERIENCE

Mathematics Student Association (HMPS) – Publication & Documentation Team

June – Nov 2022

- Managed social media content creation & event promotion, increasing engagement by 25%.
- Documented and archived association activities through photos, videos, and reports.
- Strengthened HMPS's digital presence through strategic content distribution.

TECHNICAL SKILLS

- **Programming:** Python (Pandas, NumPy, Scikit-Learn, Matplotlib), SQL (MySQL), PHP (Laravel), JavaScript.
- **Data Science & Analytics:** Statistical Modeling, Time Series Analysis (Stock Prediction), Machine Learning (Supervised/Unsupervised), Deep Learning (LSTM, CNN), Feature Engineering, Price Optimization & Forecasting.
- **Data Visualization & BI:** Looker Studio, Tableau, Power BI, Advanced Excel (Pivot Tables, VLOOKUP).
- **Tools & Platforms:** Git/GitHub, Jupyter Notebook, Google Colab, VS Code, MATLAB, MySQL Workbench.
- **Soft Skills:** Data Storytelling, Financial Auditing, Strategic Planning, Collaborative Problem Solving, Business Intelligence.
