SUMMARY

Data Analyst with 1+ years of experience transforming multi-source operational data into actionable business insights. Skilled in SQL, Python, BigQuery, Advanced Excel, reporting automation, and dashboard development using Power BI and Tableau.

PROFESSIONAL EXPERIENCE

Data & Business Analyst | PT. Sukses Multi Servis

June 2025 – Present

- **Advanced Predictive Modeling:** Engineered a data-driven statistical bidding algorithm using Python to identify market trends across 500+ operational units, successfully driving a 12% increase in gross profit margins.
- **ETL Pipelines & Automation:** Architected and deployed automated data pipelines extracting raw metrics into Google BigQuery via Apps Script and Python, effectively eliminating manual reporting and improving data accessibility by 50%.
- **Business Intelligence Infrastructure:** Developed scalable enterprise BI architectures via Power BI, monitoring SLAs and KPIs for 10.000+ monthly transactions to enable robust self-service analytics for stakeholders.
- **Data Modeling & Warehouse Optimization:** Restructured complex relational data models for 1.000+ SKUs, achieving 98% inventory accuracy and accelerating stock-picking time by 25% through systematic variance tracking.
- **Financial Data Reconciliation:** Executed comprehensive P&L analyses and cross-branch data validation, maintaining a 99.7% reporting accuracy rate that directly influenced executive decisions on strategic branch expansions.

Database Management (Intern) | PT. ASABRI KC Malang

June – July 2024

- **Database Quality Assurance:** Managed and audited 1.000+ sensitive participants' records within the internal CMS, ensuring zero data-loss workflows and resolving inconsistencies to hit a 98% data accuracy rate.
- **Process Automation:** Programmed document archiving and scanning logic to replace legacy manual input setups, successfully reducing daily processing time by 40%.

TECHNICAL SKILLS

- **Technical Skills:** SQL (BigQuery, MySQL), Python (Pandas, NumPy, Backtesting), Tableau, Power BI, Excel (XLOOKUP, ARRAYFORMULA, VSTACK, RegEx).
- **Data & Analytics:** Data Analysis, Business Intelligence, Data Validation, Predictive Modeling, ETL Pipelines, Automation Flow, Financial Auditing, Inventory Optimization.
- **Tools & Frameworks:** Google Cloud Platform (GCP), Google Apps Script, Laravel, React, MySQL, Git, GitHub.
- **Certifications:** Professional Boot Camp in Data Analysis & Data Science.

EDUCATION

State Islamic University of Maulana Malik Ibrahim Malang

Bachelor of Science in Mathematics | GPA: 3.60

(Aug 2021 – Dec 2024)
